

What is Windscreen Protection Film?

Its an optically-clear protection film for windscreens. This revolutionary patented film is multi-layered to ensure optimum strength and durability, for ultra-effective results on the road. It is thermally fitted to windscreens, forming an invisible bond with the glass and absorbing the impact of standard road hazards, leaving glass in pristine condition, and passengers safe.

Technical Specifications

Item	VLT	UV Rejection	IR Rejection	TSER	Thickness	Tensile Strength	Breaking Strength	Peel Strength
Data	87%	99%	15%	18%	4mil	31800psi	100pounds /sqi	3.5-4.5pounds /sqi
Test Method	ASTM E-1175	ASTM E-1175	ASTM E-1175	ASTM E-1175		ASTM D-638	ASTM-D638	ASTM D-303-98
